Supplement
1972

Class night commenced with the arrivals of the soon-to-be 1972 graduates . . . mixed emotions displayed by all, joyous for the closing of the year? Or perhaps a twinge of sorrow, reluctant to leave such fond memories . . .

We began to place ourselves at the tables of our friends. Our class was one big family sharing their last meal together.

Special guests of honor were Jean Saydlowski, Alice Cassota, Cindy Cerato, Jay Tkacz, Dody Masterson, Nancy Parsons, Mary Ellen Smyth, Roxanne May, Diane Dubios, Don Sheak, Mike Mills.

Roxanne May, our class historian, gave a complete resume of our class' events stemming from our first arrival at the Annex.

Cindy Cerato and Alice Cassota read the **LAST WILL and TESTAMENT**.

Dave Bourque, the nurse's "biggest helper", received a nurse's cap as a token of Mrs. Wilcox's esteem.

From the Class of 1972, Mr. Torre, Mr. Connors, and Mr. Kisiel were given engraved mugs as a sign of our gratitude for all they have done for our class.

To the teacher that helped us along, Mrs. Cokkinias was presented with a gift from Dody Masterson, Class President.

REMINISCING A NEVER-TO-BE-FORGOTTEN
NIGHT (JUNE 15, 1972)

Mike Mills leaves his legacy to the next year's senior class presented in a speech of the "Do's and Don'ts" in achieving the title of class mischievous maker. Thanking Mike for his advice was junior class president, Don Sheak. The conclusion to Don's speech was a heart-warming salute to our class wishing us the best of luck.

Jay Tkacz, the all-around athlete of our class, led a prayer for guidance in behalf of the class of '72.

The awarding of a cabbage was presented to Dave Buczkowski as a token from the Yablonski Sisters.

A different story is portrayed in each face; sadness, joy, surprise . . . Our Class Banquet came to a close . . . farewell.

"Oh Hi, I'm a post Raisin and I was gonna Walk Out!"

"What's the matter Ma?"

"One hundred and one, pounds of fun!"

Wayne Gowdy and Roxanne May were crowned King and Queen.

Crowning the king and queen were host and hostess, Laurie Dewey and Dan Hayden.

Some of the first arrivals: Bernis Gacona and Mona Abert.

Resting a few minutes to sign a Yearbook, Mary Brooker.

Two beautiful large cakes were at the prom and were a refresher for many.

The music began to take affect and couples took their places on the floor to dance and dance and dance . . .
I can't help it if I'm clumsy.

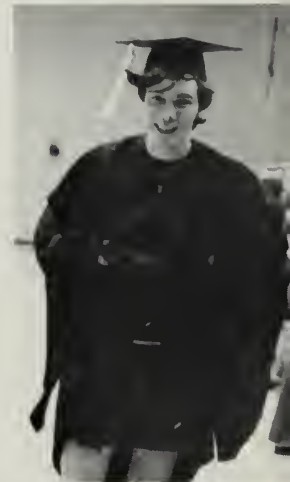

TRADITION 1972

The final signing of yearbooks.

Mr. Kisel after a friendly dip in the pool!

Wayne Gowdy models cap and gown . . . with class?

Assembled in the auditorium, we anxiously await the commencement of the exercises. During that period Departmental Scholars were awarded to the following people: English — Patricia Sheehan, Math — Cynthia Jarvis, Science — Alan Moore, Language — Nancy Abohatab, Art — Karen Boulrice, Home Economics — Georgette Putney, Music — Earl Briggs, Business — Jill Boudreau, Physical Education — Robert Ivanoff.

"People are what they are because of what was. Therefore they should bow down to what was and take it and say it's good . . . or should they? — *Carl Sanburg*

. . . For many years we have been given the answers. The time has come for us to ask our own questions and find our own answers. As long as we do not sit back and accept traditions blindly, as long as we challenge and make our own decisions regarding the propriety of traditions, we, the Class of 1972, will help to create a society in which tradition and progress will be evenly and soundly balanced. — *Excerpt from the salutatory address of Susan Wilber*

. . . And even if our hearts have awakened to the spirit of beauty, is there yet, within us, peace? If a man has not yet become the person he has long desired to be, can he be truly happy? Doesn't every man harbor dreams within his soul, earnest longings to *do* something better than that which he has done, to *be* someone worthier than he is? — *Excerpt from the valedictory address of Mary Blaszeko*

Mr. Torre leads the Commencement Exercises for the Class of 1972.

Mr. Berger accepts a plaque from Mr. Torre in appreciation of his many years of dedicated service with Enrico Fermi High School.

"As we set forth our paths . . ."

YOUTH

BELOVED, do not warn me of birds too highly flown:
Your word is not enough for me — I must have my own
I was young and did not know
Anything could hurt me so
I was gay and failed to see
What there was to torture me
I may be destroyed, but I
Shall not let this life go by
No, No! — destroy these tales
of birds too highly flown
Your word is not enough for me
I must have my own.

—James Baldwin

To be able to design and plan a yearbook is one of the greatest and most challenging activities that is undertaken during our brief stay at Fermi High. It requires putting your heart and soul into paper and cardboard in order to capture the joys, memories, and long-remembered events that have taken place throughout the year. A yearbook must be carefully constructed so as to offer the only tangible remembrance when we each go our separate ways. As each of us follows our individual paths the yearbook will evoke the memories of our class as a whole, enabling us to enjoy again the proms, the class trip, and the graduation that meant so much to us while at Fermi.

Many long hours and the earnest endeavors on the part of so many people have helped to make the Yearbook the very best possible. So many creations and ideas are necessary to give this special book a touch of "Fermi" and allows us to capture within these few pages that which we knew as Enrico Fermi High School.

After many suggestions "This Is Our World" was chosen as the theme for our yearbook to represent the sentiments of the student body. This IS our world and it is the responsibility of each and every one of us to do the best we can in order to profit the most.

THE EDITORS-IN-CHIEF

We wish to dedicate
our book
To the future classes

I DREAM A WORLD

I dream a world where man
No other will scorn,
Where love will bless the earth
And peace its paths adorn.
I dream a world where all
Will know sweet freedom's way,
Where greed no longer saps the soul
Nor avarice blights our day.
A world I dream where black or white,
Whatever race you be,
Will share the bounties of the earth
And every man is free,
Where wretchedness will hang its head,
And joy, like a pearl.
Attend the needs of all mankind.
Of such I dream—
Our world!

As We look at the days
Like minutes they did pass;
A candid candle in a maze,
Our slowly moving mass.

We looked up to you
for guidance in despair;
Hoping that you too,
Would find joys where once was bare.

Now our lives are a story
and Time does set its cast.
Even though it's not a memory,
It's still a forth coming past.

IN APPRECIATION

Time did carry us on her vast wave,
Until she met the waiting sands
and parted with us, quickly then,
Compelling us to find our balance,
to straighten on our own.

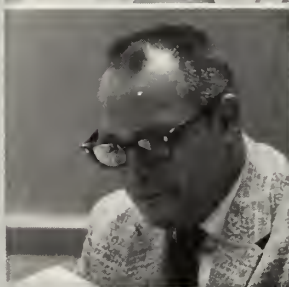

Twelve years we've rested with the wave
and now so sudden she takes her leave; but
we'll find the beach less tossed with rock;
Less painful come our stand, our steps,
Because our sea's been calm.

Who guarded us from some storm's destruction,
So started smooth the boardwalk of our future.
Some certain people who so resolved
to make our school a pleasure to us.
Their motto was "To Care."

Though they and we have small storms met,
We've calmed them with determination;
And then these learned with thoughtful hearts .
Sought means to make our school days rich,
To help us journey life.

Practice tonight after school and be ready with ideas for the rally . . . A big parade with all the school bands in Enfield . . . Dedication Day . . . How about floats? . . . Wanna buy a booster badge? What do you mean 15¢ is too much? Where's your spirit? . . . How about a snake dance through the school — no, outside the school? . . . We'll make a giant egg and paint it Fermi blue — 10 feet. long! Then Mr. Connors jumps out of it? What did you say Mr. Connors? No? . . . O.K. Sue — we're all ready to let the school hear the fight song for the first time — turn on the intercom and the tap recorder full blast! . . . What Earl? Did you say that we blew the speakers? Just kinda sounded fuzzy and loud? . . . It seems only like yesterday . . . O.K. now, for the last time — Ready! We're from Fermi and *no one* could be PROUDER!

*Win by forfeit

Well, maybe by the next game we'll learn how to shoot better, score and win.

What do you think, Bruce?

Go B.P. Down the line all the way.

Fleet-footed as a deer.

What a punt, at least 60 yards.

Defeat is ours only if we accept it.

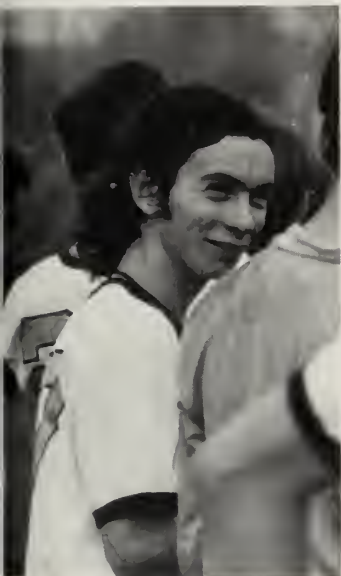

Nice save!! What a goalie.

Okay fellows, we'll get it next,, keep picthing, don't give up.

You big turkeys are slower than molasses going uphill!!

We're gonna win!

Saved it!

Before you can score
you must have a goal.

Where the heck is he?

Sometimes you win and . . .

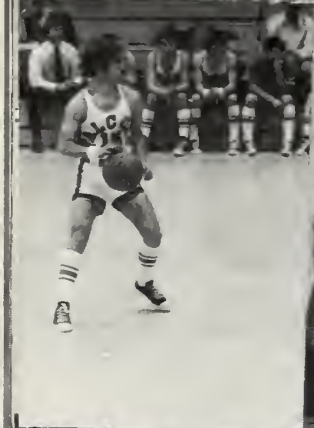

sometimes you lose.

The big three

How it all Began . . .

In our junior high years a tobacco field was chosen to be part of our future.

"The preparatory jointing, squaring, sawing, mortising, The hoist-up of beams, the push of them in their places, laying them regular." Walt Whitman

"The place where a great city stands is not the place of stretch'd wharves, docks, manufactures, deposits of produce merely . . . Nor the place of the best libraries and schools. nor the place where money is plentiest, . . . A great city is that which has the greatest men and women." Walt Whitman

Most of us will remember our sophomore year at the Annex and later spending a year of double sessions at Enfield High anticipating.

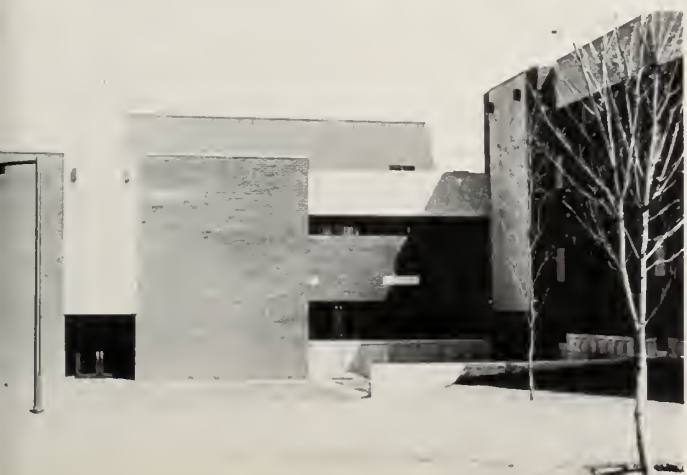

"Here is the test of wisdom, Wisdom is not finally tested in schools, Wisdom cannot be pass'd from one having it to another not having it, Wisdom is of the soul, is not susceptible of proof, is its own proof, . . ." Walt Whitman

"You windows whose transparent shells might expose so much!" Walt Whitman

The Fermi High band is comprised of dedicated musicians and a hard working color guard. Members spend hours rehearsing after school in order to add to the general spirit and entertainment of Fermi High. Performing at football and basketball games, Christmas and spring concerts, and exchange programs with other schools, the Fermi band is active throughout the year playing selections from classical to rock.

Being in the band gives a student a chance to excell individually and learn to play as a team. The work is trying, the hours long, but the rewards are great.

Donned in stunning new "Fermi blue" outfits partly designed by them, the majorettes have performed for many a crowd's delight.

In accordance with their constitution, the girls, four seniors and four juniors, surely have the qualities of determination, ability, and responsible attitude. Besides practicing about four and one-half hours weekly, they further demonstrate their determination by participating voluntarily in private baton lessons.

Imagine yourself manipulating the baton into a labyrinth of twirls: "figure-8, wrist, cartwheel, a two hand spin there and a toss there." Now choreograph a modern arrangement to "Jesus Christ, Superstar", "California Dreamer", or "El Comanchero." Sound fairly simple? You need only *attempt* combining handspins and footsteps to realize just how much coordination and precision is required!

Responsible attitudes were evidenced by the girls through their readiness to perform during football and basketball games and rallies, and on stage in musical productions.

And, as their instructor, Mrs. Arnold, says, "All the majorettes have contributed to the success of the group and helped improve the standard of performance. The girls have set a proud precedent to be carried on in years to come."

Here—where the ageless hills reach upward to the ageless stars—here where a century is measured as a day—I hold these numbered years called life within my trembling hands—these fragile years touched with wonder and with mystery—

there seems to be so little time in which to learn the purpose for our living—and yet—in the changeless pattern of things that are to be—there must be both meaning and purpose—or we would be insensitive to the healing power of beauty—and the sustaining power of love—
